Prenaissance
Rx Only

DESCRIPTION: Prenaissance is a prescription prenatal/postnatal dietary supplement in softgel form, which contains multivitamins and minerals along with DHA. Each softgel is dark purple in color and imprinted with "341" on one side.

SUPPLEMENT FACTS
Serving Size 1 Softgel

Each Softgel Contains	Amount	% Daily Value
Vitamin C (ascorbic acid)	28 mg	47%
Calcium (tribasic calcium phosphate)	160 mg	16%
Iron (ferrous fumarate)	29 mg	161%
Vitamin D3 (cholecalciferol)	800 IU	200%
Vitamin E (d-alpha tocopherol)	30 IU	100%
Vitamin B6 (pyridoxine HCl)	2.5 mg	1250%
Folic Acid	1.25 mg	313%
DHA (docosahexaenoic acid)	325 mg	†
Docosate Sodium	55 mg	†

† Daily value (DV) not established.

OTHER INGREDIENTS: Bovine gelatin, glycerin, soybean oil, soy lecithin, purified water, yellow beeswax, orange cream flavor, FD&C Red #40, titanium dioxide and FD&C Blue #1.

INDICATIONS: Prenaissance is a multivitamin/mineral prescription dietary supplement indicated for use in improving the nutritional status of women prior to conception, throughout pregnancy, and in the postnatal period for both lactating and nonlactating mothers.

CONTRAINDICATIONS: This product is contraindicated in patients with a known hypersensitivity to any of the ingredients.

WARNING: Ingestion of more than 3 grams of omega-3 fatty acids (such as DHA) per day has been shown to have potential antithrombotic effects, including an increased bleeding time and International Normalized Ratio (INR). Administration of omega-3 fatty acids should be avoided in patients taking anticoagulants and in those known to have an inherited or acquired predisposition to bleeding.

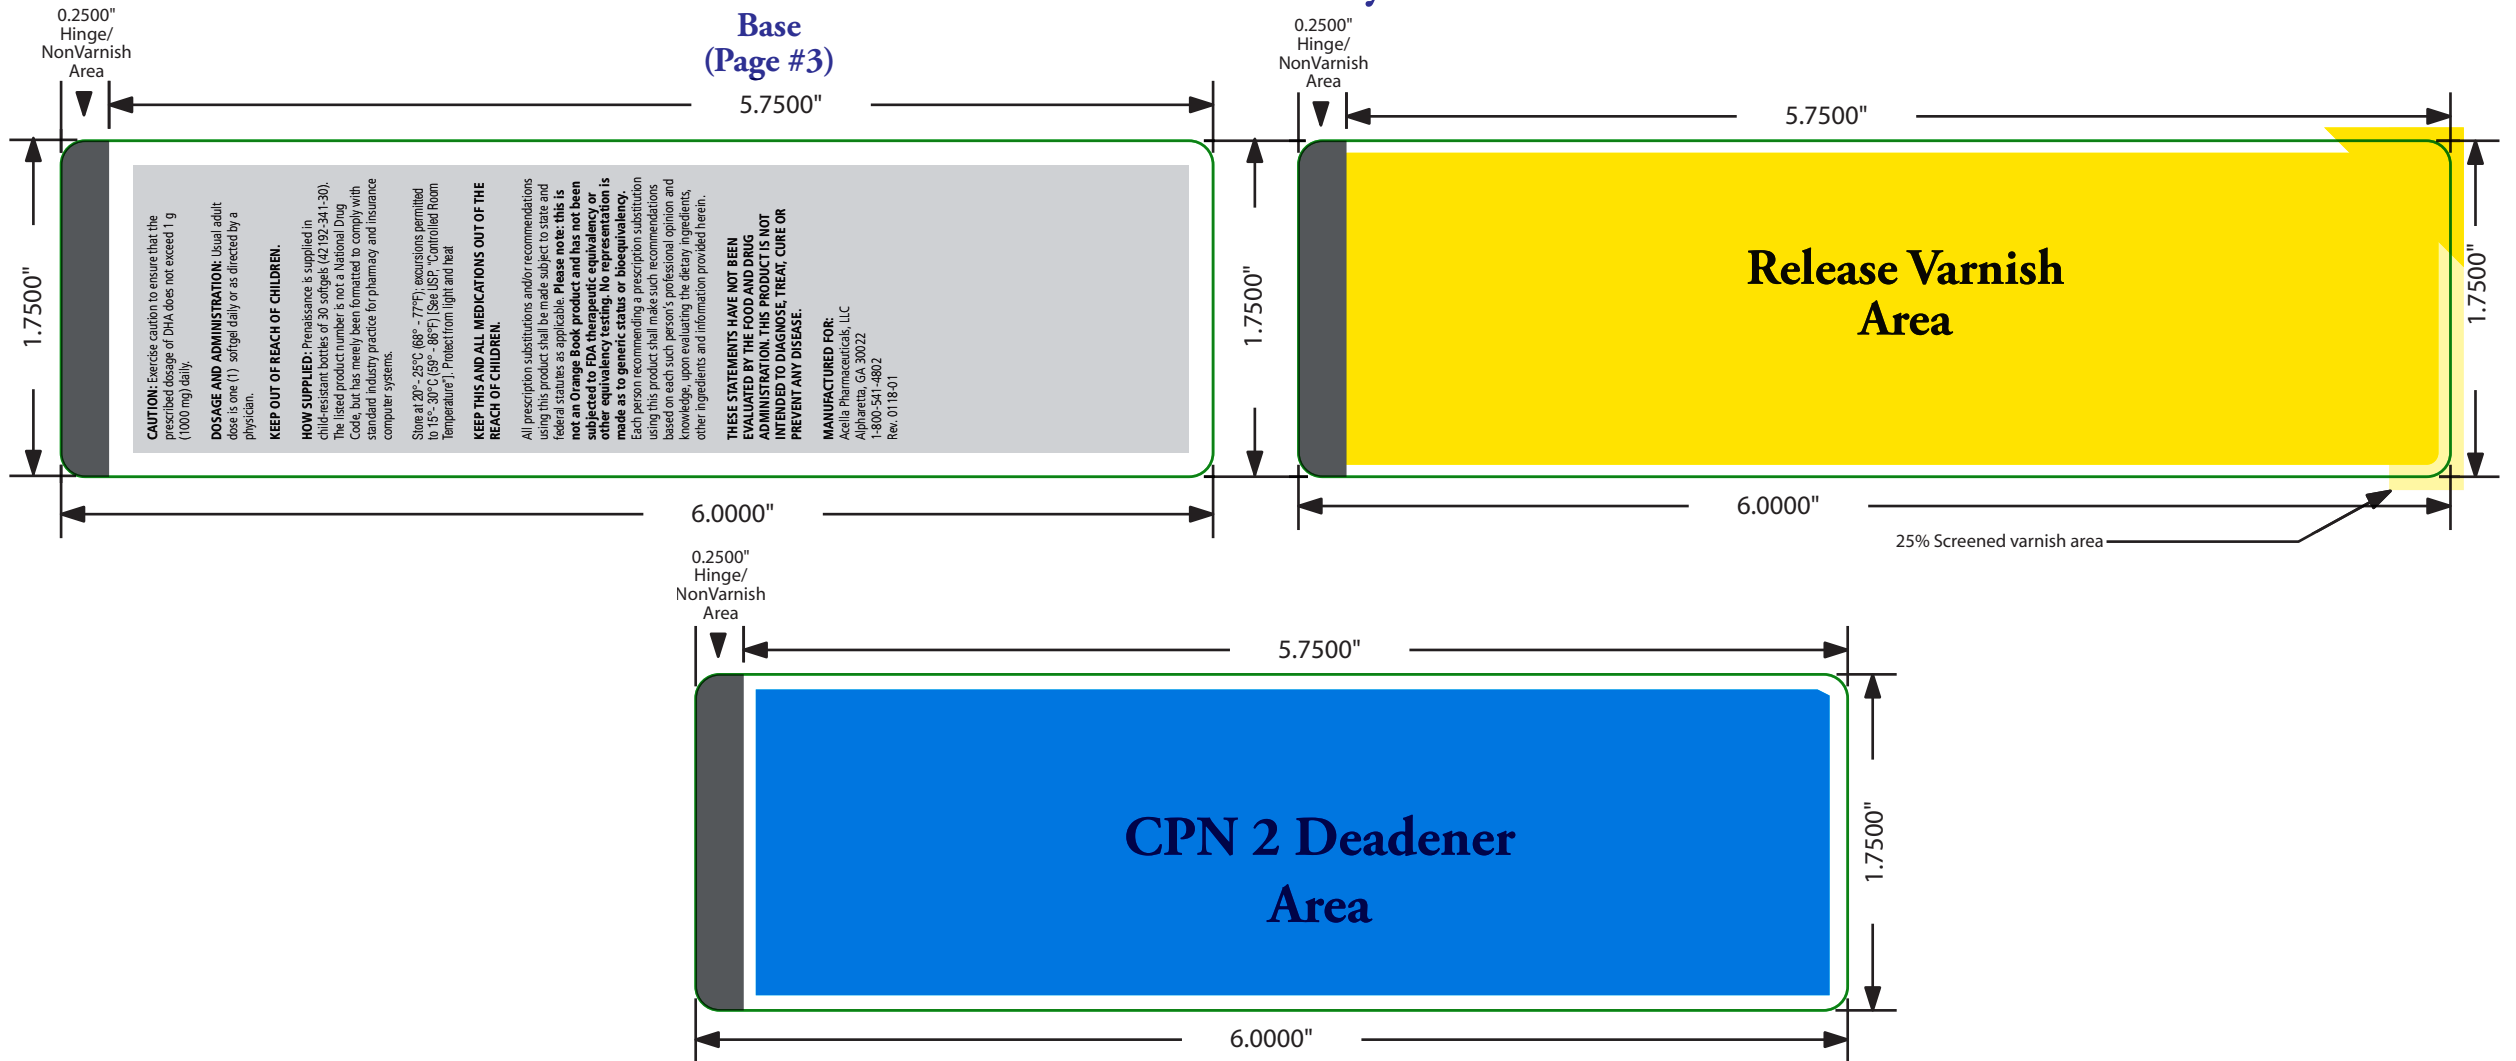

WARNING: Accidental overdose of iron-containing products is a leading cause of fatal poisoning in children under 6. Keep this product out of reach of children. In case of accidental overdose, call a doctor or poison control center immediately.

PRECAUTIONS: Folic acid alone is improper therapy in the treatment of pernicious anemia and other megaloblastic anemias where Vitamin B12 is deficient. Folic acid in doses above 1.0 mg daily may obscure pernicious anemia in that hematologic remission can occur while neurological manifestations progress.

ADVERSE REACTIONS: Allergic sensitization has been reported following both oral and parenteral administration of folic acid.
